

Village of Great Neck Estates
Public Employer Health Emergency Plan

Approval Date:_____

This plan has been developed in accordance with Chapter 168 of the New York Laws of 2020

Promulgation

This Plan has been developed in accordance with the amended New York State Labor Law Section 27-C and New York State Education Law Paragraph K and I of subdivision 2 of Section 2801-a (as amended by Section 1 of Part B of Chapter 56 of the Laws of 2016), as applicable.

This Plan has been developed with the input of the Great Neck Estates Police Benevolent Association and the CSEA, Local 1000 AFSCME, AFL-CIO, as required by the amended New York State Labor Law.

No content of this plan is intended to impede, infringe, diminish, or impair the rights of us or our valued employees under any law, rule, regulation, or collectively negotiated agreement, or the rights and benefits which accrue to employees through collective bargaining agreements, or otherwise diminish the integrity of the existing collective bargaining relationship.

This plan has been approved by the Board of Trustees of the Village of Great Neck Estates in accordance with requirements, applicable to the Village, as represented by the signature of the authorized individual below.

As the authorized official of the Village of Great Neck Estates, I hereby attest that this plan has been developed, approved, and placed in full effect in accordance Chapter 168 of the Laws of 2020 which amends New York State Labor Law Section 27-C and New York State Education Law Paragraphs K and I of Subdivision 2 of Section 2801-A (as amended by Section 1 of Part B of Chapter 56 of the Laws of 2016), as applicable, to address public health emergency planning requirements.

Purpose, Scope, Situation Overview, and Assumptions

Purpose

This plan has been developed in accordance with the amended New York State Labor Law Section 27-C and New York State Education Law Paragraphs K and I of Subdivision 2 of Section 2801-a (as amended by Section 1 of Part B of Chapter 56 of the Laws of 2016), as applicable. These laws were amended by the enactment of Chapter 168 of the Laws of 2020 signed by the Governor of New York State on September 7, 2020, which requires public employers to adopt a plan for operations in the event of a declared public health emergency involving a communicable disease. The plan includes the identification of essential positions, facilitation of remote work for non-essential positions, provision of personal protective equipment, and protocols for supporting contact tracing.

Scope

This plan was developed exclusively for and is applicable to the Village of Great Neck Estates. This plan is pertinent to a declared public health emergency in the State of New York which may impact our operations; and it is in the interest of the safety of our employees and contractors, and the continuity of our operations that we have promulgated this plan.

Situation Overview

On March 11, 2020 the World Health Organization declared a pandemic for the novel coronavirus which causes the COVID-19 severe acute respiratory syndrome. This plan has been developed in accordance with amended laws to support continued resilience for a continuation of the spread of this disease or for other infectious diseases which may emerge and cause a declaration of a public health emergency.

The health and safety of our employees and contractors is crucial to maintaining our mission essential operations. We encourage all employees and contractors to use **CDC Guidance for Keeping Workplaces, Schools, Homes and Commercial Establishments Safe**. The fundamentals of reducing the spread of infection include:

- Using hand sanitizer and washing hands with soap and water frequently, including:
 - ✓ After using the restroom
 - ✓ After returning from a public outing
 - ✓ After touching/disposing of garbage
 - ✓ After using public computers, touching public tables, countertops, etc.
- Practice social distancing when possible
- If you are feeling ill or have a fever, notify your supervisor immediately and go home
- If you start to experience coughing or sneezing, step away from people and food, cough or sneeze into the crook of your arm or a tissue, the latter of which should be disposed immediately
- Clean and disinfect workstations at the beginning, middle and end of each shift
- Other guidance which may be published by the CDC, the State Department of Health, or Nassau County health officials.

Planning Assumptions

This plan was developed based on information, best practices, and guidance available as of the date of publication. This plan was developed to largely reflect the circumstances of the current Coronavirus Pandemic but may also be applicable to other infectious disease outbreaks.

The following assumptions have been made in the development of this plan:

- The health and safety of our employees and contractors, and their families, is of utmost importance
- The circumstances of a public health emergency may directly impact our operations
- Impacts of a public health emergency will take time for us to respond to, with appropriate safety measures put into place and adjustments made to operations to maximize safety
- Resource support from other jurisdictions may be limited based upon the level of impact the public health emergency has upon them
- Supply chains, particularly those for personal protective equipment (PPE) and cleaning supplies may be heavily impacted, resulting in considerable delays in procurement
- The operations of other entities, including the private sector (vendors, contractors, etc.) non-profit organizations, and other governmental agencies and services may also be impacted due to the public health emergency, causing delays or other disruptions in their services
- Emergency measures and operational changes may need to be adjusted based upon the specific circumstances and impacts of the public health emergency, as well as guidance and direction from public health officials and the Governor
- In accordance with Chapter 168 of the Laws of 2020, ‘essential employee’ is defined as public employee or contractor that is required to be physically present at a work site to perform their job
- In accordance with Chapter 168 of the Laws of 2020, ‘non-essential employee’ is defined as a public employee or contractor that is not required to be physically present at a work site to perform their job

Concept of Operations

The Mayor of the Village of Great Neck Estates, or the Mayor’s designee, has the authority to execute and direct the implementation of this plan. Implementation, monitoring of operations, and adjustments to plan implementation may be supported by additional personnel, at the discretion of the Mayor.

Upon the determination of implementing this plan, all employees and contractors of the Village of Great Neck Estates shall be notified by phone or email, with details provided as possible and necessary, with additional information and updates provided on a regular basis. Residents will be notified of pertinent operational changes by way of Swift 911 notification and posting to the Village of Great Neck Estates website. Other interested parties, such as vendors, will be notified by phone and/or email as necessary. The Village will maintain communications with the public and constituents as needed throughout the implementation of this plan.

The Mayor of the Village of Great Neck Estates, or the Mayor’s designee, will maintain awareness of information, direction, and guidance from public health officials and the Governor’s office, directing the implementation of changes as necessary.

Upon resolution of the public health emergency, the Mayor of the Village of Great Neck Estates, or the Mayor’s designee, will direct the resumption of normal operations or operations with modifications as necessary.

Mission Essential Functions

When confronting events that disrupt normal operations, the Village of Great Neck Estates is committed to ensuring that essential functions will be continued even under the most challenging circumstances.

Essential functions are those functions that enable an organization to:

1. Maintain the safety of employees, contractors, and our constituency
2. Provide vital services
3. Provide services required by law
4. Sustain quality operations
5. Uphold the core values of the Village of Great Neck Estates

The Village of Great Neck Estates has identified as critical only those priority functions that are required or are necessary to provide vital services. During activation of this plan, all other activities may be suspended to enable the organization to concentrate on providing the critical functions and building the internal capabilities necessary to increase and eventually restore operations. Appropriate communications with employees, contractors, our constituents, and other stakeholders will be an ongoing priority.

Essential functions are prioritized according to:

- The time criticality of each essential function
- Interdependence of one function to others
- The recovery sequence of essential functions and their vital processes

Priority #1 identifies the most essential of functions, with priority #4 identifying functions that are essential, but least among them.

The mission essential functions for the Village of Great Neck Estates have been identified as:

Essential Function	Description	Priority
Police Department	Enforces NYS Vehicle & Traffic Laws and Village Codes for the safety of the Village and its residents	1
Building Department	Assures compliance with NYS Building & Fire Code and Village Code.	1
Public Works Department	Maintains Village roadways and sidewalks free of trees and debris. Removes snow to provide safe passage for emergency vehicles and residents	1
Village Office	Manages Village operations including finances, payroll, assessments, collection of taxes and Village records. Communicates with the Mayor and various Village Boards.	1
Village Court	Conduct court operations as feasible; Collection of fines related to the Vehicle & Traffic Law, Village Code and parking violations	1

Essential Positions

Each essential function identified above requires certain positions on-site to effectively operate. The table below identifies the positions or titles that are essential to be staffed on-site for the continued operation of each essential function. Note that while some functions and associated personnel may be essential, some of these can be conducted remotely and do not need to be identified in this section.

Essential Function	Essential Positions/Titles	Justification for Each
Police Department	<ul style="list-style-type: none"> Chief of Police 	Plans, directs, coordinates staffing and activities of the Police Department. Communicates with the Mayor & Board, other Police agencies and the community
	<ul style="list-style-type: none"> Police Sergeant 	Subject to direction from the Chief of Police, or other authority, the Sergeant has direct control over Police Officers within his command during his tour of duty
	<ul style="list-style-type: none"> Detective 	Under the supervision of a Superior Officer, performs the same tasks as a Police Officer and conducts investigations for felony and misdemeanor offences
	<ul style="list-style-type: none"> Police Officers 	Under the supervision of a Superior Officer, enforces municipal and State laws to protect the lives, property and legal rights of the public. Assists in emergencies, apprehends lawbreakers,
	<ul style="list-style-type: none"> Dispatchers 	Under supervision of the Superior Officer, responds to 911 and incoming calls, dispatches messages in a prescribed manner and locates information as required
	<ul style="list-style-type: none"> Parking Enforcement Officer 	Issues parking violations to maintain flow of traffic on Village roadways
Building Department	<ul style="list-style-type: none"> Building Consultant 	Reviews applications for compliance with NYS Building & Fire Code and Village Code.
	<ul style="list-style-type: none"> Code Enforcement Officer 	Performs on-site inspections. Enforces Village & building codes and issues warnings or violations for unsafe conditions and public safety.
Public Works Dept	<ul style="list-style-type: none"> Superintendent Foreperson Laborers 	Superintendent establishes schedules and assigns Foreperson and Laborers to complete prioritized tasks and maintain Village infrastructure
Village Office	<ul style="list-style-type: none"> Administrator Deputy Clerk Deputy Treasurer Secretary to the Board 	Directs staff and functions of the Village office. Communicates with the Mayor, Village Boards and the community.
Village Court	<ul style="list-style-type: none"> Village Justices Court Clerks 	Conducts court operations; Renders decisions with respect to VTL & Village Code violations Collection of fines

Reducing Risk Through Remote Work and Staggered Shifts

Through assigning certain staff to work remotely and by staggering work shifts, we can decrease crowding and density at work sites and on public transportation.

Remote Work Protocols

Non-essential employees and contractors able to accomplish their functions remotely will be enabled to do so at the greatest extent possible. Working remotely requires:

1. Identification of staff who will work remotely
2. Approval and assignment of remote work
3. Equipping staff for remote work, which may include:
 - a. Internet capable laptop
 - b. Necessary peripherals
 - c. Access to VPN and/or secure network drives
 - d. Access to software and databases necessary to perform their duties
 - e. A solution for telephone communications
 - i. Village office and Court phone lines may be forwarded to any one of the off-site staff: Village Administrator, Deputy Clerk, Deputy Treasurer, Secretary, Court Clerks.

Staggered Shifts

Implementing staggered shifts may be possible for personnel performing duties that are necessary to be performed on-site but perhaps less sensitive to being accomplished only within core business hours. As possible, management will identify opportunities for staff to work outside core business hours as a strategy of limiting exposure. Regardless of changes in start and end times of shifts, the Village of Great Neck Estates will ensure that employees are provided with their typical or contracted minimum work hours per week. Staggering shifts requires:

1. Identification of positions for which work hours will NOT be staggered:
 - The Village of Great Neck Estates Police Department consists of 18 essential workers. There are no non-essential workers within the Police Department. Staggering is not applicable and would inhibit the operation of the Department. The current schedule of the Department includes shifts which allow for the minimum of two officers required to patrol and a single dispatcher.
2. Identification of positions for which work hours or day may be staggered:
 - Public Works Department employees are essential workers however with the Mayor's approval, their employees may stagger work shifts (phase 1 & 2)
 - The Mayor may identify opportunities for Village Office and Court Staff to work outside core business hours as a strategy of limiting exposure.

Personal Protective Equipment

The use of personal protective equipment (PPE) to reduce the spread of infectious disease is important to supporting the health and safety of our employees and contractors. PPE which may be needed can include:

- Masks
- Face shields
- Gloves

- Disposable gowns and aprons
- Safety glasses

Cleaning Supplies

- Cleaning & Disinfecting Supplies used for sanitizing surfaces
- Gloves
- Hand Soap
- Hand Sanitizer

Note that while cleaning supplies are not PPE, there is a related need for cleaning supplies used to sanitize surfaces, as well as hand soap and hand sanitizer. The Coronavirus pandemic demonstrated that supply chains were not able to keep up with increased demand for these products early in the pandemic. As such, we are including these supplies in this section as they are pertinent to protecting the health and safety of our employees and contractors.

Protocols for providing PPE include the following:

1. Identification of need for PPE based upon job duties and work location
2. Procurement of PPE
 - a. As specified in the amended law, public employers must be able to provide at least two pieces of each required type of PPE to each essential employee and contractor during any given work shift for at least six months
 - b. Public employers must be able to mitigate supply chain disruptions to meet this requirement
 - c. Suppliers:
 - i. NYS Office of General Services Centralized Contracts
Nassau County Office of Emergency Management
 - ii. Local Sources
Costello's Ace Hardware
Staples
Amazon
Century Maintenance & Supply
Imperial Bag & Paper Co LLC
3. Storage of, access to, and monitoring of PPE stock
 - a. PPE must be stored in a manner which will prevent degradation
 - b. Employees and contractors must have immediate access to PPE in the event of an emergency
 - c. The supply of PPE must be monitored to ensure integrity and to track usage rates

Needs will be identified by the Police Chief, Superintendent of Public Works and the Administrator, Based on guidance published by the CDC, State Department of Health, or Nassau County Health Department. Excess PPE stock will be stored in Police Headquarters and the Village Office to prevent degradation due to fluctuations in temperature. Short term supplies of PPE for the Public Works Department will be stored in the Superintendent's office. Police Department staff, Public Works Superintendent and Village Administrator will monitor and/or maintain the stock.

Staff Exposures, Cleaning, and Disinfection

Staff Exposures

Staff exposures are organized under several categories based upon the type of exposure and presence of symptoms. Following CDC guidelines, we have established the following protocols:

- A. If employees or contractors are exposed to a known case of communicable disease that is the subject of the public health emergency (defined as a ‘close contact’ with someone who is confirmed infected, which is a prolonged presence within six feet with that person):
 1. Potentially exposed employees or contractors who do not have symptoms should remain at home or in a comparable setting and practice social distancing for the lesser of 14 days or other current CDC/public health guidance for the communicable disease in question.
 - a. As possible, these employees will be permitted to work remotely during this period of time if they are not ill.
 - b. The Mayor, Police Chief, Superintendent of Public Works and the Village Administrator in the Village of Great Neck Estates must be notified and are responsible for ensuring these protocols are followed
 - c. See the section titled Documentation of Work Hours and Locations for additional information on contact tracing
 2. CDC guidelines for COVID-19 provide that critical essential employees may be permitted to continue work following potential exposure, provided they remain symptom-free and additional precautions are taken to protect them, other employees and contractors, and our constituency/public.
 - a. Additional precautions will include the requirement of the subject employee or contractor, as well as others working in their proximity, to wear appropriate PPE at all times to limit the potential of transmission.
 - b. In-person interactions with the subject employee or contractor will be limited as much as possible.
 - c. Work areas in which the subject employee or contractor are present will be disinfected according to current CDC/public health protocol at least every hour, as practical. See the section on Cleaning and Disinfection for additional information on that subject.
 - d. If at any time they exhibit symptoms, refer to item B below.
 - e. The Mayor, Police Chief, Superintendent of Public Works and the Village Administrator in the Village of Great Neck Estates are the decision-makers in these circumstances and are responsible for ensuring these protocols are followed
- B. If an employee or contractor exhibits symptoms of the communicable disease that is the subject of the public health emergency:
 1. Employees and contractors who exhibit symptoms in the workplace should be immediately separated from other employees, customers, and visitors. They should immediately be sent home with a recommendation to contact their physician.

2. Employees and contractors who exhibit symptoms outside of work should notify their supervisor and stay home, with a recommendation to contact their physician.
 3. Employees should not return to work until they have met the criteria to discontinue home isolation per CDC/public health guidance and have consulted with a healthcare provider.
 4. The Village of Great Neck Estates will not require sick employees to provide a negative test result for the disease in question or healthcare provider's note to validate their illness, qualify for sick leave, or return to work; unless there is a recommendation from the CDC/public health officials to do so.
 5. CDC criteria for COVID-19 provides that persons exhibiting symptoms may return to work if at least 24 hours have passed since the last instance of fever without the use of fever-reducing medications. If the disease in question is other than COVID-19, CDC and other public guidance shall be referenced.
 6. The Mayor, Police Chief, Superintendent of Public Works and the Village Administrator in the Village of Great Neck Estates must be informed in these circumstances and are responsible for ensuring these protocols are followed
- C. If an employee or contractor has tested positive for the communicable disease that is the subject of the public health emergency:
1. Apply the steps identified in item B, above, as applicable.
 2. Areas occupied for prolonged periods of time by the subject employee or contractor will be closed off.
 - a. CDC guidance for COVID-19 indicates that a period of 24 hours is ideally given before cleaning, disinfecting, and reoccupation of those spaces will take place. If this time period is not possible, a period of as long as possible will be given. CDC/public health guidance for the disease in question will be followed.
 - b. Any common areas entered, surfaces touched, or equipment used shall be cleaned and disinfected immediately.
 - c. See the section on Cleaning and Disinfection for additional information on that subject.
 3. Identification of potential employee and contractor exposures will be conducted
 - a. If an employee or contractor is confirmed to have the disease in question, The Mayor, Police Chief, Superintendent of Public Works and the Village Administrator in the Village of Great Neck Estates or their designee should inform all contacts of their possible exposure. Confidentiality shall be maintained as required by the Americans with Disabilities Act (ADA).
 - b. Apply the steps identified in item A, above, as applicable, for all potentially exposed personnel.
 4. The Mayor, Police Chief, Superintendent of Public Works and the Village Administrator in the Village of Great Neck Estates must be notified in these circumstances and are responsible for ensuring these protocols are followed.

The Village recognizes there may be nuances or complexities associated with potential exposures, close contacts, symptomatic persons, and those testing positive. The Village will follow CDC/public health recommendations and requirements and coordinate with our local public health office for additional guidance and support as needed.

Cleaning and Disinfecting

CDC/public health guidelines will be followed for cleaning and disinfection of surfaces/areas. Present guidance for routine cleaning during a public health emergency includes:

1. As possible, employees and contractors will clean their own workspaces in the beginning, middle, and end of their shifts, at a minimum.
 - a. High traffic/high touch areas and areas which are accessible to the public/constituents will be disinfected at least hourly.
 - b. Imperial Commercial Cleaning Inc. is responsible for weekly cleaning. Common areas closed to the public, except by appointment, will be cleaned by employees daily.
2. Staff tasked with cleaning and disinfecting areas will be issued and required to wear PPE appropriate to the task.
3. Soiled surfaces will be cleaned with soap and water before being disinfected.
4. Surfaces will be disinfected with products that meet EPA criteria for use against the virus in question and which are appropriate for that surface.
5. Staff will follow instructions of cleaning products to ensure safe and effective use of the products.

Employee and Contractor Leave

Public health emergencies are extenuating and unanticipated circumstances in which The Village of Great Neck Estates is committed to reducing the burden on our employees and contractors. The *Families First Coronavirus Response Act* provided requirements related to the COVID-19 pandemic, which form the policies outlined below. This policy may be altered based upon changes in law or regulation, as applicable.

It is the Village's policy that employees of the Village of Great Neck Estates will not be charged with leave time for testing. Employees will be provided with up to two weeks (80 hours) of paid sick leave at the employee's regular rate of pay for a period which the employee is unable to work due to quarantine (in accordance with federal, state, or local orders or advice of a healthcare provider), and/or experiencing symptoms and seeking medical diagnosis.

Additional provisions may be implemented based upon need and the guidance and requirements in place by federal and state employment laws, FMLA, executive orders, and other potential sources.

Contractors, either independent or affiliated with a contracted firm, are not classified as employees of the Village of Great Neck Estates, and as such are not provided with paid leave time or other benefits by the Village of Great Neck Estates, unless required by law.

Documentation of Work Hours and Locations

In a public health emergency, it may be necessary to document work hours and locations of each employee and contractor to support contact tracing efforts. Identification of locations shall include on-site work, off-site visits, etc. This information may be used by the Village of Great Neck Estates to support contact tracing within the organization and may be shared with local public health officials.

Time sheets must be submitted in hard copy form or sent electronically to the Village Administrator and reviewed by the Mayor.

Housing for Essential Employees

There are circumstances within a public health emergency when it may be prudent to have essential employees lodged in such a manner which will help prevent the spread of the subject communicable disease to protect these employees from potential exposures, thus helping to ensure their health and safety and the continuity of the Village of Great Neck Estates' essential operations.

If such a need arises, hotel rooms are expected to be the most viable option. If local hotel rooms are for some reason deemed not practical, ideal or appropriate, or if there are no hotel rooms available at local hotels, the Village of Great Neck Estates will coordinate with the Nassau County Office of Emergency Management to help identify and arrange for these housing needs. The Police Chief, Superintendent of Public Works and Village Administrator will be responsible for coordinating this.
